VERONA PUBLIC SCHOOLS KINDERGARTEN REPORT CARD

REPORTING KEY FOR ACADEMIC DEVELOPMENT

- 4: Exceeding Learning Standards: Student performance demonstrates an understanding of the knowledge and skills beyond grade-level expectations and consistently shows evidence of higher level thinking. A "4" indicates unusually high achievement.
- 3: Meeting Learning Standards: Student performance demonstrates a thorough understanding of the knowledge and skills expected at this grade level.
- 2: Approaching Learning Standards: Student performance demonstrates a partial understanding of the knowledge and skills expected at this grade level.
- 1: Not Meeting Learning Standards: Student performance does not demonstrate an understanding of the knowledge and skills expected at this grade level.
- *: Learning Standard Not Addressed in This Marking Period

Understanding your child's reading level

The Reading Process

Reading is a 'self-extending' process. As we apply strategies to meet challenges to our comprehension and fluency, we extend and refine our ability to read. However, we must work with texts that are within our ability level. If the text is too hard, the process breaks down and comprehension is lost. The struggling reader cannot perform effectively, and reading is short-circuited.

The Fountas and Pinnell Reading Levels

Leading reading experts, Fountas and Pinnell, developed a leveling system that organized books according to a specific set of characteristics to help teachers instruct students with appropriate texts.

Books at a particular level share similar characteristics and are similar to one another in terms of difficulty. This system is often referred to as the "Fountas and Pinnell Reading levels." At each level, there is a cluster of characteristics that helps teachers teach to the text and address challenges encountered by the reader. Characteristics include print features, vocabulary, sentence complexity, text structure, content, language features, literary features, themes and ideas. The Fountas and Pinnell Reading levels are organized from A-Z, which classify the text from easy to hard.

*A list of specific text characteristics associated with each level can be found here.

Determining a students' reading level

It is important to note that texts are leveled, not students. Students will continually demonstrate growth with reading and the Fountas and Pinnell reading level associated with the student will change accordingly. A variety of reading assessments help to determine the reading level at which they are currently receiving instruction and the level at which they can read independently (Independent level vs. instructional level- see below). These assessments include, but are not limited to, the Developmental Reading Assessment (DRA) and running records.

*A list of typical reading behaviors associated with each reading level can be found here.

*A chart of parent tips to help your child at each level can be found here.

Instructional level vs. Independent level

Teachers work with students at two separate reading levels. One is a student's "instructional reading level"; that is, the level that a student can read with instructional support. The "independent reading level" is one at which the student can read without teacher support. On average, a student's independent reading level will be one or two levels lower.

| | MP1 | MP2 | MP3 |
|---|-----|-----|-----|
| Your child's Instructional Reading level: | | | |
| Your child's Independent Reading level: | | | |

Grade level expectations

Literary experts have aligned the Fountas and Pinnell reading levels to approximate grade levels. Referred to as the "Fountas and Pinnell progress monitoring chart," the chart is organized by grade level and states the expected grade level reading performance for each month of the school year (September –June). The months in which report cards are issued are highlighted in yellow (December, March, and June). If the student's instructional level matches the indicated level on the progress monitoring chart at the particular point in time, the student can be considered to be reading on grade level. If the student's level is higher, then the student can be considered to be reading above grade level.

Fountas and Pinnell Instructional Reading Level Expectations

| | Sept | Oct | Nov | Dec | Jan | Feb | Mar | April | May | June |
|--------------|------|-----|-----|-----|-----|-----|-----|-------|-----|------|
